

## Standard .093"

### High Power Interconnect System

Rated up to 15 amperes with high current/low force terminals and 12 amperes with standard Brass terminals. Tough nylon housings and robust terminal design create a durable, long lasting product

### Reliable, Economical Product

The Standard .093 products offer high value in features and price. These products are an excellent choice for power interconnect applications.

### Fast Assembly Reduces Your Applied Costs

Round terminals may be oriented in any direction for fast assembly.

Circuit identifiers and polarized housing design ensure accurate assembly. Dual terminal lock lances provide optimum contact stability. Wide range of crimp tooling to support any manufacturing need.

### Housing Circuit Sizes from Single Circuit up to 15 Circuits

A variety of circuit sizes allows you to select the product size that best fits your application.

### Wide Range of Product Options

Free hanging and panel mount housings, PC board headers, 14-30 AWG terminals in Brass and Phosphor Bronze base materials and Tin and Gold platings offer flexibility in design.
